## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3, 9-11, 17-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over U. S. Patent No. 6,161,139 to Win et al. in view of the examiner taking official notice.

As per claims 1, 9 and 17, Win et al. disclose receiving a request.....(col. 5, lines 22-32), retrieving a user ..... and associating said user.....(col. 11, lines 57-62). Win et al. do not specifically disclose the remaining limitations of the claims. The examiner, however, takes official notice that these elements are well known in the art of security systems . It would have been obvious to anyone having an ordinary level of skill in the art at the time the invention was made to have included these features in the invention of since they comprise very well known elements necessary for the entire system to function in a secure and controlled environment.

As per claims 2, 3, 10, 11, 18, 19, the examiner further takes official notice that these features are well known in the prior art for the same reason set for in the claim above.

***Allowable Subject Matter***

Claims 4-8, 12-16, 20-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
